FREIGHT FORWARDING

ABHISHAN LOGISTICS has assembled a comprehensive portfolio of global freight forwarding services, which has stand-alone or bundled together, create innovative supply chain solutions for multiple industries. As a single source provider, we can give you access to our global network, comprehensive services and advanced IT and visibility systems to help you manage your freight shipments.

SEA FREIGHT

To **ABHISHAN LOGISTICS** successful Ocean Transport depends on various factors. We strive hard to meet each of the factors and provide our customers with the best possible service. Our services go beyond the mere transportation activities and are much more than forwarding shipment from a warehouse to the consignee. We offer flexible, cost effective, customer oriented Ocean Transport Solutions.

AIR FREIGHT

Our personalized Air Freight services lets you to have a cost effective solution to freight forward your goods. We take extra care and meticulousness to transport your goods and comply with all the aviation and safety regulations, having expert knowledge of customs regulations, and a maintaining worldwide expertise of import/export restrictions. Our air freight service handles consignment of any size and shape.

CUSTOM CLEARANCE

Handling Customs Clearance requires professional understanding of the subject, since the Laws and Procedures related to the Customs change from time to time based on trade requirements. We have a well-trained and qualified team to handle all types of cargo and commodities, including heavy-lift and over dimensional as well as hazardous, by sea and air. We are one of the oldest and leading Custom Broker with a great experience.

SERVICES

WAREHOUSING & DISTRIBUTION

ABHISHAN LOGISTICS has warehousing space in key locations across the country. As part of our basket of services enabling you to reduce overheads, increase efficiency and cut down valuable management time. We as a Cargo Warehousing Agents provide high level professional warehousing services and care that is the assurance of the safe arrival of your product anywhere, anytime. We offer special warehousing facilities for containerized, refrigerated and hazardous materials.

SURFACE TRANSPORTATION

Surface Transportation is an integral part of logistics freight industry. Trucking segment is a major challenge to it. Surface freight in India is ever expanding and serves majority of people. Surface connectivity is integral part of ABHISHAN LOGISTICS integrated supply chain system. We provide cost-effective logistics solutions that meet business transport needs. At ABHISHAN LOGISTICS, logistic solutions using Surface network is provided to metro, urban and rural areas across India.

PROJECT CARGO

Project Cargo is a specialized field of freight forwarding and shipping business. It requires immense expertise, experience and knowledge. We at **ABHISHAN LOGISTICS** are fully geared to handle all types of heavy lift and over-dimensions. Irrespective of port of origin and final destination, our mission is to find an efficient solution.

Lashing & Chocking: We provide Lashing and Choking Services for ODC Cargo / Project Cargo and Machinery.

Our international network of partners shares the same passion and expertise to provide the high standard of service and competitiveness. With our vast experience in the shipping and clearing field, we can provide specialized shipping service to expedite international movements of Heavy Lift / Over-dimensional and Project cargo.

BREAK BULK

Often break bulk cargo is shipped using special equipment which can prove extremely expensive. With tenacious stevedoring partners located in key transport hubs around the world, we are often able to negotiate space on conventional vessels for break bulk, dramatically reducing costs whilst providing reliable cargo transportation. This kind of undertaking requires determination and commitment, as well as solid knowledge of specific ports and shipping lanes.

CHARTERING

ABHISHAN LOGISTICS is a well-respected and well-known name in the Logistics world. Through an extensive network of owners and brokers, we aim to find the right vessel first time, every time whilst meeting or exceeding our client's operational and commercial expectations. From sourcing the vessel to on-site supervision at port of discharge, we offer a door to door hassle free chartering experience to our clients. ABHISHAN LOGISTICS will charter tonnage for routes not usually covered by liner-service companies, and also for items that would normally not be transported as containerized or conventional cargo on a liner vessel.

FCL / LCL CONSOLIDATION

Large as well as small exporters & importers often have cargo that is not enough to fill an entire container. To meet the requirement of shipping such LCL cargo, we offer less than Container Load Consolidation services. Our strong focus on offering direct services to a large number of locations, the Company has provided our customers with the advantages of reduced transit time, reduced handling of cargo & higher cost efficiencies.

In addition to LCL consolidation, we also offer FCL (Full Container Load) forwarding services to our customers. With our leadership position in LCL consolidation and the large volumes of containerized cargo handled, we are also able to offer cost effective FCL forwarding solutions to our customers.

ISO TANKS / FLEXI TANKS

ISO tanks are the revolutionary concept in the transportation of liquid, gaseous and powder chemicals. They provide a sturdy safe and user friendly mode of loading, carriage, transportation, shipping and discharge of various hazardous, non-hazardous and food grade chemicals adhering to the international norms regulations of safety. We serve our valuable customers for worldwide locations for Export and Import through our division of ISO Tank Container agency business, for spot shipment, nomination / dedicated shipments.

HAZARDOUS CARGO

The term “hazardous” calls to mind safety norms to be observed in handling. We call ourselves an expert in handling the same as every precaution is taken by us to protect people and the marine environment. **ABHISHAN LOGISTICS** has a strong commitment to principles of safety, health and environmental protection in the storage, transportation and delivery of dangerous goods. Strict controls are in place to ensure that these cargoes are handled safely.

REEFER CARGO

Reefer containers are used for the intermodal transport of freight. They are manufactured according to specifications from the International Standards Organization (reefer) and are suitable for multiple transportation methods such as truck and rail, or rail and ship. Reefer containers are manufactured in many sizes.

DOOR TO DOOR DELIVERY

ABHISHAN LOGISTICS offers door-to-door delivery services for customers, who want to simplify logistics management, reduce costs and minimize the risk of loss or product damage, while focusing on core business. By leveraging the breadth and reliability of the global network, **ABHISHAN LOGISTICS** can remove days from your supply chain, delivering goods from overseas directly to your desired destination. Your shipments can clear customs while still in the air enabling delivery by the end of the next possible business day, saving you time and money.

CARGO INSURANCE

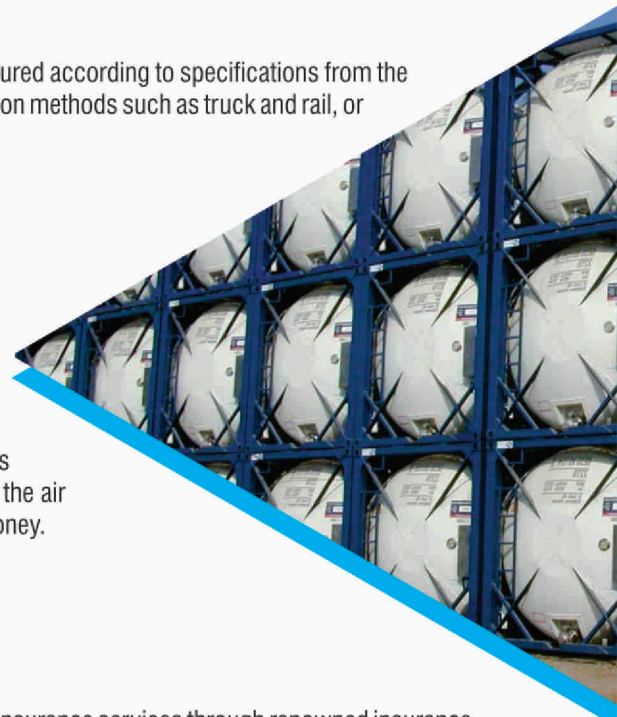

We know the importance and value of the shipments we are handling; we offer cargo insurance services through renowned insurance companies upon client request. This cargo insurance represents an essential added value to complete our service cycle. Our quality service and international presence allows us the ability to negotiate both complete and cost effective cargo insurance.

FUMIGATION

We offer Empty Container Fumigation, Fumigation for wooden packages, loaded containers etc with proper Fumigation treatment through Government Approved Fumigation Agencies. The trained professionals are instrumental in delivering these services effectively within stipulated time frame. With the objective of completely eradication the pests & rodents, the experts incorporate latest methodology.

PACKAGING / PALLETIZATION

Packaging of the cargo is one of the most important aspects in modern business. Cargo should be packed in such a way that it should not only be protected from damage due to mishandling but also it should look compact at the same time. If the cargo packing stands to be bulky then the space consumed will be more will attract more space i.e. volume which will also cost more. We also cover palletization of export consignments. The palletization services are designed for safe loading and unloading of products, preventing shipment from possible damages.
